

A report on “Imagica College tour”

Date: 17/20/2022

Vidyabharti Trust College of Business, Computer-science & Research has organised a trip for student at Imagica amusement LLP, situated at khapoli,pune. We reached the gate of the Park around 11 o'clock in the morning. At the gate, there was bird eye view of nitro roller coaster. There were different rides with a variety of movements, mini train, roller coaster and many other adventurous games inside the park. Students and faculty were a bit confused about which we should try first. We went for two more rides The Ghost House and the Roller Coaster like deep space and nitro. The saucer cup was fun to be in!

Then we decided to have lunch. After that were the rides which we all were waiting for-the water rides. We went in all of them without any hesitation.

The Rain Dance were my favourites. At last we saw a 5D movie of MR. India. This movie took us through broken bridges, steep mountains, dilapidated houses, roller coaster etc. Finally it was evening and time to go. It was such an enjoyable and memorable day. We also enjoyed snacks and shopping at Imagica.

We really enjoyed the Park
